

Features Key

Swing Vane mode

Auto Vane Shutter - when unit is switched off the vane automatically closes

Wide Swing - distributes air laterally by up to 150°

Long Airflow Mode - particularly suitable for use in long, narrow spaces

Infra-red remote controller

'I Feel' control to adjust room temperature to a users unique preference

Optimised rotary or scroll compressor

Econo Cool - allows set temperature to be raised by 2°C without any loss of comfort and a 20% gain in energy efficiency

Inverter control - adjusts performance to economically match the demand for heating or cooling

Auto-Restart

Quiet operation

72 different airflow patterns - 2, 3 or 4 way discharge

High ceiling compatibility through wide flow air outlets

Auto-Changeover

Hot Start - draught prevention

Factory charged refrigerant up to 30m (3-6hp)

Standard filter

Optional high efficiency filter

Catechin filter - improves air quality and prevents the spread of bacteria and viruses within the room

Air Cleaning filter - catches dust particles and contaminates, helping to keep the air fresh

Deodorising filter - keeps the air fresh at all times by removing household odours

Quick clean design

Drain lift pump as standard

Optional drain lift pump

Low unit height - minimal intrusion into occupied space

High external static pressure

Optional high static fan motor

Fresh air knockout

Branch duct knockout

Double thermostat function - control the temp via a sensor in the controller or the unit (wired remote controllers only)

Ceiling soiling prevention
